VISION

To form responsible engineers, who would engineer a just society

MISSION

- To provide technical education in a Christian atmosphere to deserving students who are economically poor and socially marginalized
- To train young men and women of quality to be leaders in all walks of life and serve their fellowmen with justice, truth and love
- To implement teaching learning processes that ensure guidance and mentoring for students throughout their period of study
- To provide higher education through academic collaboration and pursue research in international perspective of Engineering

PRAYER OF ST. IGNATIUS

Teach us, Lord,
to serve you as you deserve
to give and not to count the cost
to fight and not to heed the wounds,
to toil and not to seek for rest
to labour and not to ask for any reward,
save that of knowing that
we do your holy will. Amen

PERSONAL PRAYER

O God, who is the Truth and the Origin of all knowledge, whom to know is to be happy, bless our studies which we consecrate to You. Enlighten our minds, strengthen our memories and direct our wills towards that is right. Grant us to seek the Truth always and be good to everyone we meet in the path of our life, today and always.

LORD'S PRAYER

Our Father, who art in heaven, hallowed be thy name. Thy Kingdom come. Thy will be done on earth as it is in heaven. Give us this day our daily bread, and forgive us our trespasses, as we forgive those who trespass against us, and lead us not into temptation, but deliver us from evil. Amen.

LICET ANTHEM

(Spirit of LICET)

Shining bright bright bright (3)
Shining bright
Spent my days trying to
fathom the real me,
Dreaming what the real world would be,
I was nothin' but an empty shell,
Hopeful, now I form myself.
I try to voice my thoughts,
And now it reaches out.
At last I've seen the light,
Shining bright, bright, bright.

Chorus:

Like a phoenix rising from the flame,
Like an eagle soaring to the sky,
Breaking free of enslaving chains,
I let my light shine even amid my pains.
Looking up, I see my dreams of infinity,
As my heart has paved the way to clarity.
A throwback to the stagnant years,
Now full of life, now full of cheers.
Every turn captures a new surprise,
new horizons on the rise,
And now I see the light,
Shining bright, bright, bright.

THE JESUITS

St Ignatius of Loyola (1491-1556), Founder of the Society of Jesus (popularly known as the Jesuits), wanted to do the best for the least. He and his companions, though all post-graduates from Paris University in the middle of the 16th century, did not initially think of founding educational institutions when the Society of Jesus was founded in 1540. In the beginning of the Jesuit history, education was one of their activities in helping out the needy but soon they realized that education was the key to empower the marginalized. From then on, education became their primary mission and they started founding educational institutions in Europe. The Jesuits are the architects of European education through their Ratio Studiorum (1599), which gives the outline and logic of European educational system.

For over 470 years education has been the focus of Jesuits' commitment to the people. At a time when education was available only for the elite and the well-to-do, Ignatius founded a school in Rome and offered education for all. At the time of his death (1556) the Jesuits were already directing 33 colleges and universities in Europe. Today there are over 200 Jesuit institutions of higher education worldwide : 40 of them in India. Over the centuries, members of the Society of Jesus have excelled in imparting relevant and meaningful education wherever needed.

The Jesuits have been in all fronts that would serve the betterment of humankind. They have contributed much to science: Teilhard de Chardin (1881-1955) a French Jesuit philosopher,

trained as a paleontologist and geologist, discovered the missing link in the evolution (the Peking Man). The Jesuits introduced Maths and Astronomy in China. Seismology was called the Jesuit Science. The Gregorian calendar, that is in use today, has been designed by a Jesuit (Christopher Clavius). In recognition of Jesuit contribution in astronomy about 35 craters in the moon are named after them.

The Jesuits discovered the gear system in engineering and Quinine for Malaria. In architecture, they developed ratio aedificiorum and promoted Baroque architecture. Jesuits have been pioneers and pathfinders in the field of education especially in pedagogy and relevance of education. They promoted liberal arts and science leading to holistic formation of the person as global leaders with social responsibilities. The first university college in India, St Joseph's College (Trichy), was founded in 1844. Loyola College (Chennai) was founded by the Jesuits in 1925. It has been established, owned and administered by the Loyola College Society (LCS). LCS is registered under the Society of Registration Act of 1860, No 228/1973, and has its office in Loyola Campus, Chennai. Loyola College was founded in 1925 by Rev Fr Francis Betram SJ and a band of dedicated Jesuits who came over to Chennai at the invitation of the Most Rev Dr J. Aelen, Archbishop of Chennai, to open the Catholic College in the State Capital.

Loyola Campus in Chennai has been the fountain of academic institutions: The passion of the Jesuits for global education propelled them to be innovative, expanding their service in education: In 1979 Loyola Institute of Business Administration (LIBA) came into existence and in 2007 Loyola College of Education was founded. After serving for more than a century and a half in the educational field of arts and science, Jesuits felt the need for opening up new vistas in technical education. Aiming at global education, and making it be accessible to the marginalized

but ensuring academic excellence and professional innovation, the Jesuits evolved the concept of an engineering college in Loyola Campus.

Based on the common search for creativity, competence, commitment, compassion, and social responsibility for the students, they signed an MoU (Memorandum of Understanding) with Institute Catholique d'Arts et Métiers (ICAM) founded in 1898 in Lille (France) in April 2009 with the purpose of forming Leaders with social responsibility. Loyola-ICAM College of Engineering and Technology (LICET) is the outcome of the common vision between ICAM and LCS. LICET aims at forming engineers who would engineer a just society.

After due process, LICET today is an institute of technical education approved by AICTE and affiliated to Anna University, Chennai (August 2010). LICET is a Christian Minority Institution approved by Tamilnadu Government (July 2011); and is ISO 9001:2008 certified too (May 2012 and May 2015). At present LICET offers five courses: BE in Computer Science, Electricals and Electronics, Electronics and Communication, and Mechanical Engineering as well as BTech in Information Technology.

LICET offers co-education with preference to Catholics, socially marginalized (the Dalits), first generation graduates, and rural poor. The college strives to be unique in every way, while working within the frame of Anna University (Chennai) curriculum. LICET, committed to individual formation, resulting in social transformation, is building up industry-institution interface and soon will evolve as the epicenter of social change and the beacon of global education. LICET will also stand as a symbol of a cause – Empowering the marginalized through intellectual and professional formation to be leaders of decision-making. It is the process of making those at the receiving end, to assume the power of command-centers.

GOALS AND OBJECTIVES

The Jesuit education has the following multipronged goals and objectives:

The Jesuit education

- Is world affirming;
- Assists in the total formation of each individual within the human community;
- Insists on individual care and concern for everyone;
- Emphasizes activity on the part of the student
- Encourages life-long openness to growth;
- Is value-oriented;
- Encourages a realistic knowledge, love, and acceptance of value-oriented; self;
- Provides a realistic knowledge of the world in which we live;
- Prepares for active life commitment;
- Serves the faith that does justice;
- Seeks to form men and women for others;
- Manifests concern for the poor particularly ;
- Pursues excellence in its work of formation;
- Witnesses to excellence.

(Cf. The Characteristics of Jesuit Education by Fr Peter-Hans Kolvenbach SJ, Superior General of the Jesuits, Rome: Dec 8, 1986). The primary aim of Loyola College Society is to provide a University education in a Christian atmosphere to deserving students, especially those belonging to the Catholic Christian Community. Although this college is meant primarily for Catholics, it does admit other students irrespective of caste and creed. The college aims at producing young men and women of quality to be leaders in all walks of life and to serve their fellow human beings in justice, truth, and love. It is expected that this training and formation would play a vital role in bringing about the desired change for the betterment of the people of our country, more particularly the

poor and marginalized sections of society. Further, it will foster an atmosphere of intellectual vigour and moral rectitude in which the young men and women of our country may find their fulfillment and achieve greatness as eminent men and women for/with others. In keeping with the Jesuit option for the poor and the marginalized, 30% of the admissions is reserved for the rural poor, first-generation learners, and the socially marginalized (the Dalit Catholics).

ICAM

ICAM (Institut Catholique d'Arts et Métiers) was founded in 1898 by two industrialists, Mr Vrau and Mr Feron-Vrau, and was entrusted to the Jesuits to build up technical education based on the Jesuit pedagogy. Today ICAM has 7 technical institutions (5 in France and two in Africa). ICAM is known for its effective teaching programmes based on industry-institution relationships. ICAM Group trains around 600 engineers with social responsibility every year. ICAM and LCS forge solidarity in academic exchange in training the faculty members and forming the students. This will be realized through building up a highly effective institution –industry relationship.

JESUIT EDUCATION – NEW FRONTIERS

The Jesuit education is an integration of intelligent-quotient, emotional-quotient, and God-quotient, leading to justice-quotient. At LICET, responsible engineers who would engineer a just society are formed as global leaders with social responsibility. Jesuit Education in the Madurai Province (Tamil Nadu) today draws its inspiration from the two epoch-making statements: Vision Statement and Preamble to Jesuit Higher Education that originated in the Madurai Province Meet of 1985.

EXCERPTS FROM THE VISION STATEMENT

The political freedom of our country achieved in 1947 has failed to break

*the bondage of our people over the years... Today about 60% of our people have been made poor and kept illiterate. They are deprived of the basic necessities of life and education, of human dignity, and the power to decide their own future. There is a degrading inequality caused primarily by caste discrimination... We understand that the contemporary equivalent of the mission of salvation is the integral liberation of man... which is crystallized for us today in an ardent desire to work **TOWARDS LIBERATION TOGETHER WITH THE POOR.** The preferential option for the poor means that we cast our lot with them through concerted social action. Our love is, indeed for all human beings, but assumes different forms. We love the oppressed by espousing their cause and we love the oppressor by emancipating him from his greed and domination which dehumanize him.*

EXCERPTS FROM THE PREAMBLE TO HIGHER EDUCATION

“Our educational institutions will shape our students into agents of social change, preparing them for concerted social action and thus paving the way to mass movements which will bring about the desired liberation. They will, in their admission policies actualize our preferential option for the poor, by ‘giving a privileged place to the weak’- socially, economically and academically and form them ‘as men for others, stamped with the Ignatian hallmark of excellence and relevance’.”

TOWARDS COMMUNION WITH MOTHER EARTH IN HUMAN SOLIDARITY

(Excerpts from the Statement of the Jesuit Madurai Province Assembly held at St Joseph’s College, Trichy on 27-28 Dec 2008)

“We stand at a critical moment in Earth’s history and we perceive more clearly than ever before that Mother earth is groaning under the impact of environmental degradation. The unprecedented environmental destruction through depletion of natural resources, desertification, global

warming, pollution and widespread displacement of people caused by ill-conceived developmental initiatives is echoed across the universe (GC 35 D3/33) ...

“We also note with grave concern that Mother India is being subjected to the onslaught of communalism and religious fundamentalism. We should not be mute and passive spectators to the violation of human rights in our country but act as a protest force raising our voices unitedly against such inhuman acts. In this context, we pledge to promote the culture of dialogue and reconciliation across various sections of our country appreciating pluralism. We hope thus to build up a harmonious and equitable society which upholds the inalienable human rights and dignity of all...”

In his book ‘The Spiritual Exercises’, St Ignatius of Loyola brings out the environment-consciousness that we should possess in order to see God in everything and everything in God. He writes: “...God dwells in creatures; in the elements, giving them life; in the animals, giving them sensation; in human beings, giving them intelligence; and finally,... he dwells in myself, giving me existence, life, sensation, and intelligence; and ever further, making me his temple, since I am created in the likeness and image of the Divine Majesty.... God labours and works for me in all the creatures on the face of the earth; that is, he is working in the heavens, elements, plants, fruits, cattle, and all the rest – giving them their existence, conserving them, concurring with their vegetative and sensitive activities... ” (Sp. Ex 235f).

Now, the LICET engineers are expected to work for others, with social responsibility. LICET promotes awareness on environment as well as non-conventional energy, especially solar and wind energy. In this academic year, ‘Green Loyola’ is the driving force to build up environment awareness.

UNIQUENESS OF LICET

INSPIRINGLY CREATIVE

LICET is evolving as a centre of global learning and the students are formed as leaders with social responsibility. LICET is inspiringly creative in its curriculum and empowering the students for the world of tomorrow. The faculty and students exchange programmes with universities abroad give the members of LICET a global exposure needed for national and international leadership with social responsibility

A brief history of LICET:

After the Restoration of the Society of Jesus in 1814, the French Jesuits came to Tamilnadu. In remembrance of this origin, efforts were made both by ICAM as well as LCS, to co-found a technical institute of higher education. In order to strengthen the newly formed Chennai Mission, the Jesuits thought of an engineering college at Chennai. After much deliberation and numerous meetings both in Chennai and in Lille (France), Loyola-ICAM College of Engineering and Technology (LICET) emerged in 2010 for forming engineers with social responsibility with the focus on relevant, industry related, and job-oriented technical education. The maxim of the Jesuit education is 'magis' (ever to excel). As the students leave LICET, each one would realize: if you really want to achieve something, the entire universe would conspire to help you achieve it. The spirit of 'ever to excel' would be the driving force to create a new world order. In LICET students will not be taught yesterday's solution for tomorrow's problem/challenges but trained as men and women of vision for a better tomorrow. In LICET the students, not only be taught what to think but how to think as well. The Jesuits dream of making LICET unique.

The following features would be the hallmark of LICET:

- **Academic Collaboration:** LCS and ICAM would like to form engineers with social responsibility. Today the tendency and demand is technical education coupled with management-training. Also, the global need for engineers especially in Europe and USA is to be taken care of. At LICET three streams of students' education are foreseen:

- a. After BE/BTech degree at LICET, they can continue with an MBA degree at LIBA (Loyola Institute of Business Administration);
 - b. After BE/BTech at LICET they can pursue an ME in ICAM (France);
 - c. Students from ICAM (after LICET becomes autonomous) can study at LICET. LICET is establishing collaboration with universities (especially in the USA and Europe) for the purpose of faculty and students exchange programmes. LICET students are able to do their projects in universities abroad. Thus, LICET will become the epicenter of global education forming men and women for worldwide needs. ICAM students come to Loyola every year to study for one semester. LICET students are sent to ICAM(France), Comillas University (Spain), and Heilbronn University for summer project work. They also pursue Master's Programmes in France, USA, UK, and Australia. This gives not only integration with other cultures but also experience with global educational and industrial networking.
- **Jesuit Pedagogy:** LICET has got a combination of highly intellectual students as well as slow learners. For the sake of those who come from Tamil medium, English coaching is given in the beginning. As Mathematics is fundamental for engineering studies. bridge course is offered in maths as well the The bridge course that originated at LICET, is now taken up and recommended by Anna University to all the affiliated colleges. After unit tests, the slow learners are given special coaching so that they could catch

up with others. In addition to the class teachers who follow the academic progress of the students, each student has a mentor who would journey with the student all through the eight semesters. In mentoring, the needs of the students, especially low self-confidence, low self-esteem etc, are addressed and professional counseling is offered to those who need it. Thus, journeying with the students boost their morale and confidence to face the challenges once they step out of the portals of LICET.

The LICET administration constantly keeps in touch with the parents of the students. Periodic reports are sent to the parents on the attendance, academic progress etc. During the periodic Parents-Teachers-Association meetings ways and means are discussed to make education more relevant and meaningful. LICET formation is based on the following four-pillar hybrid system, which is basic and essential for forming the student

- Preparing the students as per the prescribed syllabi of affiliating Anna University
- Excelling in professionalism through interaction and integration with industries
- Personality development through communication skills, Time and Stress Management, Motivation and Goal-setting, valued-based outlook in life etc

- International exposure to universities and industries abroad; and
- Imbibing God-quotient, through retreat and spiritual experience
- **Industry-Institute Interface** : Technical education is expected to meet the challenges in a world of scientific and technological advancement. Though LICET has to follow the syllabi of Anna University (Chennai), value-added courses and skill-based training are additionally offered at LICET. There is a productive combination of theory & skill based training. Industry-Institute Interface opens up new vistas for students to make the best out of industrial visits. Arrangements are made for the students to have hands-on experience in the industrial environment and to have in-plant training as well in order to find placement. The first year students also have opportunity for industry internship in summer. In this respect ICAM Methodology of lab-oriented training is offered and students are guided to put into practise the theory that they are learning. Guest lecturers and lab training by the industrialists are periodically arranged for better grasp of the subject. This ensures jobs even before they complete the courses.

Every year Industry-Institute Network Meet is organized to keep in touch with the current trend and needs in industries. Over 300 industries that are in working relationship with LICET offer opportunities for in-plant training and projects, leading to placement.

- **Research:** LICET believes in learning by doing and making innovative contribution to the world of science and technology. LICET encourages the faculty as well as the students to take active part in national and international seminars and present papers based on original research. Our students do very well on national and international level by presenting creative and innovative proposals and models. LICET invites industries to set up their research facilities in LICET so that our faculty and students could have access. This would pave the way

to make joined contribution: Our faculty would become consultants to industries and our students would be able to do in-plant training and project work leading to their placement as well. LICET promotes research on various domains of social demands. At present DST project on 'experiential learning' is making progress.

- **God quotient:** To make the students imbibe values in their lives, retreats are organized at regular intervals for catholic students. For other students life skill trainings are organized. These exercises help the students to be more focused and achieve better in their career.

- **Holistic Formation:** LICET is aware that the students are not the finished products of engineering but rather they are in the making. Some students are good in academics, some others in fine arts, and yet others in sports etc. LICET creates an atmosphere for the overall growth of students. Cultural as well as sports are given equal importance at LICET. The multi-talents of the students are showcased during cultural as well as sports/games activities and each student is formed to feel that he/she has talents and hence he/she is worth something in the world of competition. During regular Parents-Teachers-Association meetings the progress of the students are discussed and follow-up actions are taken. Attempts are initiated for financial assistance for the needy. At LICET academic excellence and leadership formation are considered as two axes of education.

- **LICET Tournament :** One could learn a lot from games and sports, such as self-confidence, teamwork etc. In order to promote sportsmanship LICET has come up with LICET Tournament. The first LICET TOURNAMENT was organized in Jan 2014 in cricket (men), volleyball (women), and badminton (men and women). This has brought in good teams from other engineering colleges and it helps in students formation as well.

- **Future Direction** : LICET contemplates on introducing new programmes catering to the demands of the industry and also collaborative training programmes in diversified fields. It also intends to promote entrepreneurship and innovation, while strengthening its ties with other universities in and outside India. By building up industry institute relationships and strengthening this bond LICET desires to become a centre of excellence for Research and Development. LICET also envisages to become a leader in the innovative teaching learning process and providing relevant and updated content of the engineering curriculum.

General Rules & Regulations

Students are the ambassadors and torch-bearers of LICET by letting their Light shine in the world. The following rules and regulations, although meant to be deterrent to wrongdoing, would serve better if taken as sign posts and traffic signals for the smooth running of the college

DISCIPLINARY RULES

The following are strictly forbidden. Any violation of these rules will result in dismissal/suspension from the college:

1. Ragging of any kind and any magnitude inside or outside the college campus.

NOTICE ON RAGGING

As per the directions of the Supreme Court by SLP No. 24295 of 2006 dated 16-05-2007 and the Notification F.No.37-3/Legal/AICTE/2009 issued by the AICTE - New Delhi, students are asked to note the following.

“Ragging is a heinous crime and is punishable under various sections of Law.”

The following are some of the acts considered as Ragging and are punishable.

- Any conduct by any student or students whether by words spoken or written or by act which has the effect of teasing, treating or handling with rudeness a fresher or any other student.
- Indulging in rowdy or indisciplined activities by any student or students which cause or likely to cause annoyance, hardship, physical or psychological harm or raise fear or apprehension thereof in any fresher or any other student;
- Asking any student to do any act which such student will not in the ordinary course do and which has the effect of causing or

generating a sense of shame, or torment or embarrassment so as to adversely affect the physique or psyche of such fresher or any other student;

- Any act by a senior student that prevents, disrupts or disturbs the regular academic activity of any other student or a fresher;
- Exploiting the services of a fresher or any other student for completing the academic tasks assigned to an individual or a group of students.
- Any act of physical abuse including all variants of it
- Any act that affects the mental health and self - confidence of a fresher or any other student with or without an intent to derive sadistic pleasure or show of power, authority or superiority by a student over any fresher or any other student.

The Institution can make any one or combination of the following punishments against the students who indulge in ragging:

- Cancellation of admission
- Debarring from appearing for any test/examination or other evaluation process
- Withholding / withdrawing scholarship / fellowship and other benefits
- Suspension/expulsion from the hostel
- Expulsion from the institution and consequent debarring from admission to any other institution.
- Collective punishment: when the persons committing or abetting the crime of ragging are not identified, the institution shall resort to collective punishment as a deterrent to ensure community pressure on the potential raggers.

- If anyone is found guilty of ragging, he/she is entitled to a Rigorous Imprisonment for Two Years and Penalty by the Indian Penal Code. If the crime is of sexually oriented then the punishment may go upto 10 years Rigorous Imprisonment and penalty.

2. Possession/use of cellular phones within the campus.

- Use of cellular phones inside the buildings/corridors.(Violation of it will result in confiscation of the mobile phones).

As students enter the campus the mobiles must be in switched-off mode and kept in their purses/ pockets/bags and not taken out for any reason until they leave the premises. Any communications through mobile (oral or SMS) should be done outside the college premises.

3. Any kind of wild noisy and disturbing behaviour/celebrations in the campus.
 4. Chewing gums, smoking, and use of tobacco in any form in any part of the campus.
 5. Possession/use of drugs, alcohol or peddling drugs in the campus or anywhere else.
 6. Causing damage to the college/public property by scribbling on walls, graffiti writing, scratching walls/toilets, breaking furniture, lab equipments, damaging fittings and pipes etc.
 7. Taking tuition from the teachers of our college without prior written permission from the Principal .
 8. Tampering with the contents or misuse of the college / library identity cards, train/bus passes, tickets and tokens
- Any kind of misconduct/misbehaviour inside/outside the campus (in public places, buses, trains, etc.) or detection of foot-board travel, blocking the traffic, unruly behavior in buses/trains or any kind of annoyance to the public will also result in the immediate

withdrawal/permanent cancellation of all student travel concessions and the scholarships.

9. Racing or driving without wearing helmet or with defective silencers or parking the vehicles outside the parking area in the campus.
10. Malpractices such as cheating, bribing, gambling, copying in tests/ exams, giving false declarations, spreading rumours/ unfounded accusations / writing / printing / distributing / displaying unauthorized notices of any kind, etc. in the campus or anywhere else.
11. Inviting/meeting strangers or unauthorized person(s) inside the campus without written permission from the Principal.
12. Standing in parking places and chatting during class hours.
13. Forming or taking part in associations without prior approval from the Principal and taking part in any antisocial and subversive activities inside/outside the campus.

DRESS CODE

Girls : Decent Salwar Kameeze or Chudidhars with duppattas neatly draped and pinned on both shoulders to be worn on Mondays. Knee length Kurti Tops with stols and pants are allowed on other days of the week.

Boys : Formal full trousers with tiked - in shirt and shoes to be worn on Mondays . Jeans pants and T - shirts are allowed, on other day of the week.

FEE REGULATIONS - COLLEGE FEE

Students are expected to pay the college fee annually in the beginning of every academic year as per the announcement on or before the last date, failing which a late fee decided by the Principal will be collected

for a specified period. Subsequently defaulters will be removed from the rolls. All payments due to the college will be received only by cash or DD and can be paid in the Loyola College IOB extension in favour of LICET, A/C No. 171201000002010. Office copy of the challan should be produced in the accounts section of the college office for updating the college record. Students are also advised to retain all their fee payment receipts securely until the end of their studies and produce them at any time if required for verification.

ANNA UNIVERSITY FEE

Apart from the college fee as described above, every student is expected to pay the various fees prescribed by the Anna University (Chennai) like recognition fee, examinations fee, etc., as prescribed and notified by the University.

ATTENDANCE

The college timing is 8.00 am to 4.00 pm. All the students are expected to attend classes punctually and regularly. All should aim at 100% attendance. However if there are some important and genuine reasons such as family celebrations, ill health, etc. students can avail leave after getting prior permission from the Head of the Department. Attendance will be taken every hour. In case of any valid reason, with the permission of the Dean of students the attendance can be marked for any particular student coming late after the commencement of the class. LICET expects 100% attendance from the students. A minimum of 75% attendance is the requirement to write university examinations.

PUNCTUALITY

Students should be present in the classroom at the stroke of the bell. The first hour will start with a short prayer for the whole college during which all stand in silence wherever they are and seek the blessings of

the Lord. Latecomers should report to the respective HoDs and get his/her signature in the late slip and show it to the teachers for admission into the classroom.

LEAVE • Students should apply for leave only in the prescribed leave application form available in the college office, signed by parents / guardian / Hostel Director and get the endorsement of the HOD.

- If leave is requested for reasons of illness for more than two days, the leave application along with a medical certificate should be submitted by the parent / local guardian on or before the 3rd day of illness. A fitness certificate from the doctor who treated the student should be submitted on the day of rejoining the college. Leave letter submitted after the time limit will not be accepted.

- The name of the student will be removed from the rolls if he/ she is absent continuously for more than 10 days without proper intimation.

- Submission of leave application with / without medical certificates does not entitle a student to earn attendance for the days of his/ her absence.

PROGRESS REPORT

A report card about a student's progress in curricular and extra-curricular activities, attendance and conduct will be sent by the Principal to the parents or guardians at the end of the assessment tests. Parents / guardians have to sign the reports and return them to the college within 10 days of receipt. This is an important record meant for all the four years of study.

IDENTITY CARD

Each student is expected to possess an identity card with his / her recent photograph affixed on it, duly attested by the Principal. They are advised to keep the card with them always. All students should produce their identity cards at the security post, if and when required. Loss of identity card should be reported immediately and duplicate will be issued on paying a fee of Rs. 200/-. All students should surrender their ID cards at the end of the degree programme.

COLLEGE LIBRARY

College library, the heart of the academic institution, caters to the need of both staff and student community. The library is well stocked with text and reference books recommended by Anna University. Each department has a library of its own with a collection of books pertaining to the department and could be accessed by everyone to make the best use of this facility. The library has prime sources like journals, magazines, encyclopedia, dictionaries, CD-ROM databases and e-journals to enhance the knowledge of the students.

GENERAL INSTRUCTIONS

- The library is open on all working days from 7.30 am to 7.00 pm.
- Identity card should be shown at the checkpoint on demand.
- Bags, handbags and personal belongings are to be deposited at the depository.
- Any material taken out of the library should be shown to the staff at the checkpoint.
- The users enter the library, after swiping their ID card in the entry machine kept at the security counter. Similarly, when they leave, the leaving time should also be entered in the exit entry register.
- Books will be issued to the students for a period of two weeks.

- Library users are strictly prohibited from taking the borrowed and stamped books back into the library.
- Membership Cards are not transferable.
- Books will be issued, subject to the availability only.
- The condition of the books needs to be checked before leaving the counter.
- Absence from the college will not be considered as an excuse for the delay in the return of books.
- Under special circumstances, the librarian may refuse the issue of books or recall the books already issued from any member without assigning any reason thereof.
- Fine structures are displayed on the library notice boards.
- If the due date falls on a holiday for the library, the next working day will be considered as the due date.
- Bound volumes and unbound issues of periodicals, reference books, damaged books and CD-ROMs will not be issued on loan.
- Before leaving the counter the members must make sure that the books lent to them are in good condition and if not, they must immediately bring it to the notice of the staff on duty at the circulation counter. Otherwise they shall be held responsible for any damage discovered afterwards.
- Books should be handled with care. Marking on books is the most objectionable and may lead to cancellation of membership. Our library is following open access system and hence the members have the privilege of direct access to book shelves including reference. A book can be freely taken out of shelves, but on no account should it be reshelfed by the members as it leads to misplacement of books. After use, the book may be left on the nearest table, which will be shelved by the library staff.

- Loss of books on loan should be immediately reported to the librarian. Members are liable to replace such books or pay an amount, five times equivalent to the cost of the book. If one volume of a set is lost, the whole set will have to be replaced. The members are liable to pay the overdue charges as admissible, in addition to the cost of the book, up to the date on which the loss was reported. If the book reported as lost is later found out and returned, then overdue charges will be collected from the due date.
- Internet facility can be availed by all category of library members with prior permission from the librarian. During library hours students should refrain from using computer facilities. They can access only E-Journals subscribed and study materials.
- Library may accept donation of manuscripts, books, periodicals etc. from the donors. Such donations once accepted will become the absolute property of the college.
- Library members can make a printout copy of the articles from journals accessed in the central library.
- Loss of ID card has to be reported immediately.
- As each borrower is responsible for the book issued, it is requested not to lend one's card to others. ID card has to be collected, without fail after returning the books, from the circulation counter.
- No due clearance will be issued at the end of every semester after clearing all library due.
- Dustbins provided in the reading area should be used in order to help, keeping the library clean.

LABORATORY

Students should

- Carry the observation note book and the record note book, duly completed and enter the laboratory only after the approval of the

staff incharge. They must leave their other belongings in their respective class room.

- Maintain utmost discipline inside the laboratory by avoiding unnecessary talking or indulging in activities which would disturb other students.
- Keep the lab and the work place neat and clean.
- Report all breakages and damages immediately to the staff in charge
- Do not enter the stock room for any reason.
- Leave the lab only after all equipments have been handed over and the work spots inspected by the staff in charge.
- Do not leave the lab without permission from the staff-in-charge under any circumstance.

MENTORING

Each student on admission to LICET will be assigned a teaching faculty as 'Mentor' to monitor/accompany in his/her academic journey until the completion of the degree. The student is expected to meet the mentor periodically for consultation and counselling.

CYBER CRIME

In the world of internet and cyber space, LICET students should be aware that these are devices which could be effectively used or misused/abused. Students who make use of the cyber space, such as Face Book, to defame the good name of the institution or to indulge in character assassination of the staff members as well as fellow students, spreading rumors, harassment, or stalking would be severely dealt with. Any offence would be taken up for enquiry by the Disciplinary Committee. Students may not be able to avail minor status (for under 18 years of age) for violating any rules and regulations of LICET.

APPEAL TO PARENTS

Parents and local guardians are requested to cooperate with college authorities in the formation of good character, in maintaining regularity in attendance and the academic progress of their children/wards. When warning letters are sent to them, they should respond immediately by contacting the respective HoD/teacher to resolve issues concerning their children/wards and find ways and means of improving the situation. Parents are informed that industrial visits and in-plant training are compulsory for all students and they should extend full support to help them participate and make use of it. They should also advise their wards to spend their free time either in the library or in discussion with the teaching faculty to enhance their knowledge.

LICET BUILDING PLAN

The Constitution of India

PREAMBLE

**WE, THE PEOPLE OF INDIA,
having solemnly resolved to constitute India into a
SOVEREIGN SOCIALIST
SECULAR DEMOCRATIC REPUBLIC
and to secure to all its citizens:**

**JUSTICE, social, economic and political;
LIBERTY of thought,
expression, belief, faith and worship;**

**EQUALITY of status and of opportunity;
and to promote among them all
FRATERNITY assuring the dignity of the
individual and the unity and
integrity of the Nation;**

**IN OUR CONSTITUENT ASSEMBLY
this twenty-sixth day of November, 1949, do
HEREBY ADOPT, ENACT AND GIVE TO
OURSELVES THIS CONSTITUTION.**

THE JESUITS OF THE CHENNAI PROVINCE work on these APOSTOLIC PREFERENCES

Empowering the Dalits, especially Dalit Christians, tribals, refugees, migrants and other marginalised and disadvantaged groups.

Preserving and protecting the environment and safeguarding the rights of those affected by environmental degradation.

Providing holistic and integral formation to youth to be agents of social transformation.

Promoting justice, peace, reconciliation and secular values in response to all forms of fundamentalism and casteism.

Forming our men to be rooted in Ignatian Spirituality and credible in life and mission.
